

# FRIENDS OF THE UH CANCER CENTER

Please join us to support the mission of the **University of Hawai'i Cancer Center** and to hear Director, Dr. Randall Holcombe update us on the exciting new developments at the UH Cancer Center.

The funds raised will be used to support the educational outreach done by the UH Cancer Center with its summer internship program. Each summer 15 to 20 local undergraduate and high school students work at the UH Cancer Center being mentored by cancer researchers and through the experience are inspired to further their science education.
